Dear Sir:

I, John J. Tomaszewski, hereby represent that I am an attorney of record for the above-mentioned Patent Application and that Optima, Inc., Stratford, Connecticut 06497 is the assignee of the entire right, title, and interest of the subject application by assignment through parent Application No. 08/425,958 recorded at Reel 7477, Frame 0957, on April 19, 1995. (Copy attached.)

By the authority vested in me as an Attorney of Record, the owner of the subject application hereby disclaims, except as provided below, the terminal part of any patent granted to the above-identified Patent Application which would extend beyond the expiration date of the full statutory term defined in 35 USC 154 to 156 and 173, as presently shortened by any terminal disclaimer of prior U.S. Patent No. 6,008,296. The owner hereby agrees that any patent so granted on the subject application shall be enforceable only for and during such period that it and any patent granted on the above-listed application are commonly owned. This agreement runs with any patent granted on the subject application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, the owner does not disclaim any terminal part of any patent granted on the subject application that would extend to the expiration date of the fully statutory term as defined in 35 USC 154 to 156 and 173 of the prior patent, as presently shortened by any terminal disclaimer, in the event that any such granted patent: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321, has all claims canceled by a reexamination certificate, is reissued, or is otherwise terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Please charge Account No. 04-0566 for the fee specified in 37 C.F.R. § 1.20(d) and any fee deficiency required by this paper. Similarly, please credit my Account No. 04-0566 for any overpayment. A duplicate copy of this sheet is enclosed.

Respectfully submitted,

Zhou Yang et al.
